

5th International Conference on Arthroplasty and Orthopedic Surgery

Theme: Beyond Bone: Advancing Orthopedic Surgical Frontiers

Date

Nov 19-20, 2025

Venue

Paris, France

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

About Conference

The Organizing Committee of Arthroplasty Conference 2025 is delighted to announce the **5th International Conference on Arthroplasty and Orthopedic Surgery**, which will take place in Paris, France, on November 19-20, 2025. This Orthopedic Surgery conference provides a unique opportunity for the global orthopedic community to gather, share cutting-edge research, and discuss the latest advancements in arthroplasty and orthopedic surgery.

Conference Highlights:

State-of-the-Art Treatments: Explore the latest developments in arthroplasty and other orthopedic treatments.

Surgical Techniques: Deep dive into advanced surgical techniques and their practical applications.

Research Findings: Gain access to the most recent findings from global research initiatives.

Meet-the-Expert Sessions: Engage directly with renowned specialists in the field, providing an unmatched opportunity to discuss clinically relevant topics.

Networking and Collaboration: Connect with professionals, researchers, and clinicians from around the world to foster collaboration and knowledge exchange... [\(click here for more\)](#)

Conference Schedule

Day 1 - Nov 19, 2025 (Wednesday)

08:55-09:00	-	Registration
09:00-09:15	-	Opening Ceremony and Introduction
09:15-10:30	-	Keynote Session
10:30-10:50	-	Refreshment Break
10:50-12:30	-	Break Out Session
12:30-13:30	-	Lunch
13:30-15:00	-	Break Out Session
15:00-15:30	-	Refreshment Break
15:30-17:00	-	Break Out Session

Day 2 - Nov 20, 2025 (Thursday)

09:00-10:30	-	Keynote Session
10:30-10:50	-	Refreshment Break
10:50-12:30	-	Break Out Session
12:30-13:30	-	Lunch
13:30-15:00	-	Break Out Session
15:00-15:30	-	Refreshment Break
15:30-17:00	-	Break Out Session

5th International Conference on Arthroplasty and Orthopedic Surgery

NOVEMBER 19-20, 2025 | PARIS, FRANCE

SPEAKER PRESENTATIONS

Title: Double-plating for comminuted osteoporotic proximal humerus fracture

Renán Estuardo Vargas Morales, Víctor Lazarte Hospital; Antenor Orrego University, Peru

Title: A comparative study of early functional outcomes in undisplaced neck of femur fracture treated with partially threaded and fully threaded cannulated screw fixation in patients above 60 years age

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: Four-week outcomes of transforaminal epidural injections in patients with lumbar radicular pain

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: The impact of prior anterior cruciate ligament reconstruction on patient-reported outcome measures of patients undergoing subsequent total knee arthroplasty: a Swedish registry-based study

Ioannis Syrikas, NU-Hospital Group, Sweden

Title: Peripheral nerve stimulation HF-EMC technology to power an implanted neurostimulator with a separate receiver for the treatment of chronic knee pain after total knee replacement: a retrospective study

Earl Kilbride, Austin Orthopedic Institute, USA

Title: Open dislocation of the talus: case report

Giacomo Antonio Gatto, Saint Pio of Pietrelcina, Italy

Title: Cannabidiol for the treatment of cervical spondyloarthritis-related pain: a case report

Valdecir Carlos Tadei, São José do Rio Preto School of Medicine, Brazil

Title: To anterior approach in primary total hip arthroplasty - learning curve complications

Leopoldo J Maizo, Santa Paula Medical Group, Venezuela

Title: What about sleep quality improvement after total hip arthroplasty for unilateral osteoarthritis in active elderly?

Jean-François Cazeneuve, Victor Pauchet Clinic, France

Title: Ligamentopraxia of the medial complex in knees with medial conflict

Marco Antonio Schueda, University of Contestado, Brazil

Title: Evaluation of the effect of *Plinia cauliflora* in the prevention of osteoporosis ovariectomized rats

Maxsuel Fidelis De Padua Almeida, University Paranaense (UNIPAR), Brazil

Title: Management of reduced medial joint space in knee joint: Meniscus root repair, high tibial osteotomy, and unicondylar knee replacement

Girish Autade, Ashwini Multispeciality Hospital, India

Title: Causes of pain in the muscles of the lower extremities and methods of its treatment in children with cerebral palsy

Oleksandr Shulga, Shupyk National University of Health Care of Ukraine, Ukraine

Title: Local Injections of Tropocollagens for Musculoskeletal Pain

Belyaeva Elena Aleksandrovna, Tula State University Medical Institute, Russian Federation

Title: Trochanteric osteotomy and transfer during total hip arthroplasty in patients with dislocated dysplastic hips: Union rate using monofilament transverse wire cerclage

Morteza Kalhor, Iran University of Medical Sciences, Iran

Title: Evaluation of bone mineral density in the population of severe adolescent idiopathic scoliosis by using total body dual x-ray absorptiometry

Chi-Yung Yeung, Taipei Veterans General Hospital, Taiwan

Title: Interprosthetic joint motion in bipolar partial hip arthroplasty after one-year follow-up

Noreen Joyce Lim Yeo, Makati Medical Center, Philippines

Title: What are the real complications after unicondylar knee arthroplasty

Valeriy Murylev, Sechenov University, Russian Federation

Title: Biomechanical stiffness and strength of new versus reused stainless steel uniplanar tibial external fixator constructs in a low-resource setting

Geneva S. Khu, Northern Mindanao Medical Center, Philippines

Title: Novel advanced imaging method to differentiate acute osteomyelitis from acute charcot neuroarthropathy in presence of chronic ulcer: A case report

WooYoung Chun; April Wong, Kent Hospital, USA

Title: Thoracic aneurysmal bone cyst, decompression by costotransversectomy, corpectomy and expandable telescopic cage: Case report and literature review

Karoll Ortíz-Guillén, High Specialty Medical Unit No. 25, Mexico

Title: Possibilities of using modified bioactive ceramics in the reconstruction of critical post-traumatic bone defects

Vasyl Shmahoi, Dobrobut Medical Center, Ukraine

Title: Challenges of Total Hip Replacement in Sickle Cell Disease

Hatem Hamed Alharbi, King Fahad Armed Forces Hospital, KSA

Title: Isolated congenital unilateral aplasia of patella with contralateral hypoplasia of patella – a case report

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: Functional outcome of wrist among patients undergoing percutaneous screw fixation of acute scaphoid fracture at Tertiary Care Hospital

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: EMG guided chemodenervation for post-laminectomy syndrome and rotator cuff repair

Roger H. Coletti, Interventional Health, USA

Title: Use of appropriate weight bearing directions in post-op notes and patient discharge letters after orthopaedic operations – are the current BOAST guidelines being followed?

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: Reconstruction of the supple flatfoot with the concept of planal dominance

H. John Visser, SSM Health DePaul Hospital Foot and Ankle Surgery Residency, United States

Title: Factors causing delay to surgical treatment in geriatric neck of femur fracture patients

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: SNAC wrist – how to plan my management literature review

William Gibaja, Rebagliati Hospital, Peru

Title: Reducing length of stay for shoulder arthroplasty patients: A service improvement project introducing day-of-surgery admissions to a single site in a tertiary shoulder unit

Alice Maria Arvidsson, Aneurin Bevan University Health Board, United Kingdom

Title: A novel technique to decrease the risk of infection post coccygectomy: A case series study

Mohannad W. Awwad, King Saud University, Saudi Arabia

Title: Evaluation of rod breakage after three-column osteotomy

Fernando Breno de Oliveira Ribeiro, National Institute of Traumatology and Orthopedics Jamil Haddad, Brazil

Title: Comparative study of cemented vs uncemented total hip arthroplasty in elderly patients

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: Effectiveness of Mulligan mobilization versus Maitland mobilization with common use of eccentric exercise for the treatment of Achilles tendinopathy in football players

Priyanka Pal, Fit-O-Fine, India

Title: An assessment of a multi-strategic approach to fracture education in early clinical exposure sessions for preclinical medical students

Shivam Thaker, Kasturba Medical College, India

Title: Understanding the National Joint Registry (NJR): Enhancing global orthopaedic outcomes

Hamza Salameh, Royal Devon NHS Trust, United Kingdom

Title: Acute compartment syndrome (ACS): A review of ACS and cost to a major trauma centre

Ruqaiya Al-Habsi, The Royal London Hospital, United Kingdom

Title: Amputation of the distal phalanx of the finger of the right hand due to a dog bite and its satisfactory evolution derived from nursing care

Olga Bexaide Crespo Linares, Mutua Universal, Spain

Title: Rehabilitation of hip arthroplasty

Rodrigo Hamada, Angel Cruz Padilla Hospital, Argentina

Title: Role of vacuum assisted closure in revision total knee replacement surgery

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: Clinical correlation of associated synovitis in meniscal pathology noted during knee arthroscopic meniscectomy

Syed Hassan Raza Bokhari, East Kent Hospitals University NHS Foundation Trust, United Kingdom

Title: Optimising pre-operative intravenous fluids to reduce the incidence of acute kidney injury in hip fracture patients

Nicholas Ng, Queen's Medical Centre, United Kingdom

Title: Elevation and distraction of the tibial periosteum in the management of chronic ischemic lower limb diseases

Huiyan Liu, YueYang Central Hospital, China

Title: Surgical treatment with percutaneous fixation of proximal humeral fractures using the Catábriga technique

Luciano Bahia Catabriga, Hospital Ipiranga; Belo Horizonte Hospital, Brazil

Title: Improving adherence to perioperative cognitive assessment documentation in hip fracture patients: A quality improvement project

Nicholas Ng, Queen's Medical Centre, United Kingdom
