

6th International Conference on Arthroplasty and Orthopedic Surgery

Theme: Redefining Surgical Paradigms in Arthroplasty & Orthopedic Surgery

Date

Nov 09-10, 2026

Venue

Bangkok, Thailand

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

About Conference

The Organizing Committee of Arthroplasty Conference 2026 is delighted to announce the **6th International Conference on Arthroplasty and Orthopedic Surgery**, which will take place in Bangkok, Thailand, on November 09-10, 2026. This Orthopedic Surgery conference provides a unique opportunity for the global orthopedic community to gather, share cutting-edge research, and discuss the latest advancements in arthroplasty and orthopedic surgery.

Conference Highlights:

State-of-the-Art Treatments: Explore the latest developments in arthroplasty and other orthopedic treatments.

Surgical Techniques: Deep dive into advanced surgical techniques and their practical applications.

Research Findings: Gain access to the most recent findings from global research initiatives.

Meet-the-Expert Sessions: Engage directly with renowned specialists in the field, providing an unmatched opportunity to discuss clinically relevant topics.

Networking and Collaboration: Connect with professionals, researchers, and clinicians from around the world to foster collaboration and knowledge exchange... [\(click here for more\)](#)

Conference Schedule

Day 1 - Nov 09, 2026 (Monday)

08:55-09:00	-	Registration
09:00-09:15	-	Opening Ceremony and Introduction
09:15-10:30	-	Keynote Session
10:30-10:50	-	Refreshment Break
10:50-12:30	-	Break Out Session
12:30-13:30	-	Lunch
13:30-15:00	-	Break Out Session
15:00-15:30	-	Refreshment Break
15:30-17:00	-	Break Out Session

Day 2 - Nov 10, 2026 (Tuesday)

09:00-10:30	-	Keynote Session
10:30-10:50	-	Refreshment Break
10:50-12:30	-	Break Out Session
12:30-13:30	-	Lunch
13:30-15:00	-	Break Out Session
15:00-15:30	-	Refreshment Break
15:30-17:00	-	Break Out Session

6th International Conference on Arthroplasty and Orthopedic Surgery

November 09-10, 2026 | Bangkok, Thailand

SPEAKER PRESENTATIONS

Title: Knee microbiota in the physiopathology of osteoarthritis. Microbes could play an important role in a presumed Non-infectious disease

Tommaso Bonanzinga, Humanitas University, Italy

Title: Risk of breakage of modular stems in revision total hip arthroplasty

Nikolay Cherkezov, Medical University- Sofia, Bulgaria

Title: Non-traumatic distal femoral insufficiency fractures following total knee arthroplasty: A case series of 11 patients

Mohamed Magdy, Zagazig University, Egypt

Title: A novel combined double-bundle anterior cruciate ligament reconstruction using a modified quadriceps tendon graft

Evgeniy Naryshkin, V.A. Nasonova Research Institute of Rheumatology, Russian Federation

Title: Relevance of routine postoperative biochemical tests in primary hip and knee arthroplasty patients: assessing necessity and clinical outcomes

Raja Muhammad Mussab, Dudley group NHS Foundation trust, UK

Title: Outcomes following tibiototalcalcanal arthrodesis using a solid posterior offset intramedullary nail in 44 patients with a minimum 30-month follow-up

Kaylem M Feeney, Bon Secours Hospital, Ireland

Title: Spontaneous hemarthrosis and compartment syndrome in an elderly female with acquired hemophilia a: A case report

Mohammed Alam, Wyckoff Heights Medical Center, USA

Title: On-table reconstruction of radial head fractures

Radim Herůfek, Masaryk University, Czechia

Title: Bony integration of a hybrid glenoid component in anatomical shoulder arthroplasty: Short-term CT scan analysis

Hugo Barret, Toulouse University Hospital, France

Title: Pedicled radius flap (1,2 supraretinacular artery) as a late treatment of scaphoid fracture associated with carpal dislocation: a case report

Stephania Campanella, Venezuela

Title: A rare case of spinoglenoid cyst of the shoulder clinically misdiagnosed as a rotator cuff tear

Salman S, Sri Lakshmi Narayana Institute of Medical Sciences, India

Title: Anterior knee pain after total arthroplasty: a cohort study of patients with bilateral knee arthroplasty

Gianluca Zocco, University of Messina, Italy

Title: Accuracy of mixed-reality registration to patient-specific 3d-printed bone tumor phantoms using optical tracking and 3d-printed surface-matching jigs

Juan Barriga, Mount Sinai Hospital, University of Toronto, USA

Title: Post-lumbar laminectomy arachnoiditis

Amr Mansour, Hillel Yaffe Medical Center, Israel

Title: Impact of early weight-bearing on outcomes of femur fractures treated with intramedullary nailing: A systematic review and meta-analysis

Basem E. Ali, Kingdom Hospital, KSA

Title: Multimodal tranexamic acid administration in total knee arthroplasty: a bayesian network meta-analysis and meta-regression supporting the concept of a pharmacologic tourniquet

Shayan Ali Irfan, Dow University of Health Sciences, Pakistan

Title: Analysis of the analgesic efficacy of selected combination therapy treatments with standard management in low back pain during a sanatorium stay

Michał Ulikowski, MSWiA Spa Sanatorium, Poland

Title: Low energy bilateral femoral neck fracture in elderly patient: A case study

Lunemo Sakafu, Mbeya Zonal Referral Hospital, Tanzania

Title: Arthroscopic synovectomy in diffuse-type tenosynovial giant cell tumor of the knee joint

Evgeniy Naryshkin, V.A. Nasonova Research Institute of Rheumatology, Russian Federation

Title: Operative treatment of patients with fractures during COVID-19

Mladen Stojanovic, University Clinical Center Nis, Serbia

Title: Risk factors for amputation among patients with diabetic foot disease in a tertiary hospital: a retrospective case-control study

Anna Colleen D. Rossi, Baguio General Hospital and Medical Center, Philippines

Title: Possible causes and prevention of pin tract infection, loss of frame stability, and loss of tension in the k wires in circular external fixators

Charles Howard, Hadassah University Hospital, Israel
