

2<sup>nd</sup> International Conference on

## Arthroplasty and Orthopedic Surgery

December 8-9, 2022 | GMT+1 (Paris)

## Day 1: December 08, 2022 Thursday

Introduction: 10:15 - 10:30

	Session Introduction
10:30 - 10:50	Title: Anterior bone loss after Cervical Baguera C Disc versus Bryan Disc Arthroplasty – Does artificial disc design matter?
	Tse Yu Chen, Taichung Veterans General Hospital, Taiwan
10:50 - 11:10	Title: Crystals in Rheumatic diseases: Case-based discussion
	Ritasman Baisya, Clinical Immunology & Rheumatology, India
11:10 - 11:30	Title: The joy stick technique – An easy, reliable, safe and cost effective, technique in closed reduction and percutaneous fixation of supracondylar fracture of the humerus in children
	Deepak Kumar, Divisional Railway Hospital, India
11:30 - 11:50	Title: Botulinum toxin type a for lower limb lengthening and deformity correction: A systematic review and meta-analysis
	Jawaher Alsharef, King Abdullah International Medical Research Center, KSA
11:50 - 12:10	Title: Evaluation of the results of the transtibial and anteromedial ACL reconstruction
	<b>Sergei Bantser</b> , Vreden National Medical Research Center of traumatology and Orthopedics, Russian Federation
12:10 - 12:30	Title: Complications after medial UKA: Reason analyses
	Valeriy Murylev, IM Sechenov First Moscow State Medical University, Russian Federation
12:30 - 12:50	Title: The reducing of the disability in the treatment of lumbar disc hernia with motor deficit by using high intensity laser therapy
	Diana Lidia Tache Codreanu, Colentina Clinical Hospital, Romania
	Break (12:50 - 13:00)
13:00-13:20	Break (12:50 - 13:00)  Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up
13:00-13:20	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis
13:00-13:20 13:20-13:40	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up
	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results
	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method
13:20-13:40	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece
13:20-13:40	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece  Title: Monitoring healing of orthopedic ailments with an original instrumented crutch
13:20-13:40 13:40-14:00	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece  Title: Monitoring healing of orthopedic ailments with an original instrumented crutch  Cristina REYNDERS, Belgium  Title: Hip partial replacement throung anterior direct approach in the treatment of femoral neck
13:20-13:40 13:40-14:00	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece  Title: Monitoring healing of orthopedic ailments with an original instrumented crutch  Cristina REYNDERS, Belgium  Title: Hip partial replacement throung anterior direct approach in the treatment of femoral neck fractures
13:20-13:40 13:40-14:00 14:00-14:20	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece  Title: Monitoring healing of orthopedic ailments with an original instrumented crutch  Cristina REYNDERS, Belgium  Title: Hip partial replacement throung anterior direct approach in the treatment of femoral neck fractures  Trivellin Giacomo, University of Trieste, Italy  Title: Safety profile of a new policy on timing of emergency hip fracture surgery in patients on
13:20-13:40 13:40-14:00 14:00-14:20	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece  Title: Monitoring healing of orthopedic ailments with an original instrumented crutch  Cristina REYNDERS, Belgium  Title: Hip partial replacement throung anterior direct approach in the treatment of femoral neck fractures  Trivellin Giacomo, University of Trieste, Italy  Title: Safety profile of a new policy on timing of emergency hip fracture surgery in patients on direct oral anticoagulants- a united kingdom NHS orthopaedic trauma unit experience
13:20-13:40 13:40-14:00 14:00-14:20	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece  Title: Monitoring healing of orthopedic ailments with an original instrumented crutch  Cristina REYNDERS, Belgium  Title: Hip partial replacement throung anterior direct approach in the treatment of femoral neck fractures  Trivellin Giacomo, University of Trieste, Italy  Title: Safety profile of a new policy on timing of emergency hip fracture surgery in patients on direct oral anticoagulants- a united kingdom NHS orthopaedic trauma unit experience  Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom
13:20-13:40 13:40-14:00 14:00-14:20	Title: Transposition of the extensor pollicis brevis for spontaneous ruptures of the extensor pollicis longus of the hand. Functional outcomes at one year follow-up  Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece  Title: Intraarticular calcaneus fractures percutaneous fixation. Clinical and radiographic results of the method  Konstantinos Chaniotakis, General Hospital of Heraklion Venizeleio, Greece  Title: Monitoring healing of orthopedic ailments with an original instrumented crutch  Cristina REYNDERS, Belgium  Title: Hip partial replacement throung anterior direct approach in the treatment of femoral neck fractures  Trivellin Giacomo, University of Trieste, Italy  Title: Safety profile of a new policy on timing of emergency hip fracture surgery in patients on direct oral anticoagulants- a united kingdom NHS orthopaedic trauma unit experience  Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  Title: Intravascular Myopericytoma: A case report

Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom  Title: Implementing golden patient pathway into emergency trauma theatre at a district general hospital Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom  Title: Outcomes of total elbow replacement in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  Title: Assessing current referrals to the T&O department-An evaluation of the traffic light system for ED and Urgent Care  Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom  Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation- A United Kingdom single centre study  Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures  Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review  Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary  Ziad El Menawy, United Kingdom  Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil	15:20-15:40	Title: Clinical and Radiological Outcomes of BOX Total Ankle Replacements in a District General Hospital
of proximal humeral fractures?  Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom  Title: Implementing golden patient pathway into emergency trauma theatre at a district general hospital  Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom  Title: Outcomes of total elbow replacement in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  Title: Assessing current referrals to the T&O department-An evaluation of the traffic light system for ED and Urgent Care  Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom  Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation - A United Kingdom single centre study  Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures  Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review  Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary  Ziad El Menawy, United Kingdom  Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30  Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study  Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50  Title: Preriprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in		Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom
Title: Implementing golden patient pathway into emergency trauma theatre at a district general hospital Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom  16:20-16:40 Title: Outcomes of total elbow replacement in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom Title: Assessing current referrals to the T&O department-An evaluation of the traffic light system for ED and Urgent Care Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation. A United Kingdom single centre study Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10 19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia 19:30 - 19:50 Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome	15:40-16:00	Title: Has The ProHFER trial changed the orthopaedic surgeons' decision making and treatment of proximal humeral fractures?
general hospital Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom  16:20-16:40 Title: Outcomes of total elbow replacement in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  16:40-17:00 Title: Assessing current referrals to the T&O department-An evaluation of the traffic light system for ED and Urgent Care Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom  17:00-17:20 Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation- A United Kingdom single centre study Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  17:20-17:40 Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  17:40-18:00 Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20 Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom  18:20-18:40 Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome Anabel		Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom
16:20-16:40 Title: Outcomes of total elbow replacement in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom Title: Assessing current referrals to the T&O department-An evaluation of the traffic light system for ED and Urgent Care Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation- A United Kingdom single centre study Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee Jose Guerra, Scarborough Health Network, Canada Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeous and staff Edward R Floyd, Twin Cities Orthopedics, USA Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacio	16:00-16:20	
Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  16:40-17:00  Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom  17:00-17:20  Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation- A United Kingdom single centre study Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  17:20-17:40  Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  17:40-18:00  Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20  Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom  18:20-18:40  Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30  Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study  Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50  Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff  Edward R Floyd, Twin Cities Orthopedics, USA  20:10 - 20:30  Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico		Kunal Dwijen Roy, Royal Gwent Hospital, United Kingdom
16:40-17:00 Title: Assessing current referrals to the T&O department-An evaluation of the traffic light system for ED and Urgent Care  Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom  17:00-17:20 Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation- A United Kingdom single centre study Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  17:20-17:40 Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  17:40-18:00 Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20 Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom  18:20-18:40 Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  19:50 - 20:10 Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico	16:20-16:40	Title: Outcomes of total elbow replacement in patients with hemophilia: A systematic review
Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom  17:00-17:20 Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation- A United Kingdom single centre study Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  17:20-17:40 Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  17:40-18:00 Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20 Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom  18:20-18:40 Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico		Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom
17:00-17:20 Title: Incidence of associated ligament and cartilaginous knee injuries on magnetic resonance imaging in traumatic acute patella dislocation- A United Kingdom single centre study Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee Jose Guerra, Scarborough Health Network, Canada Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA  20:10 - 20:30 Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico	16:40-17:00	
Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom  Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures  Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review  Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary  Ziad El Menawy, United Kingdom  Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30  Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study  Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50  Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff  Edward R Floyd, Twin Cities Orthopedics, USA  Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico		Sean Garcia, East Kent Hospitals University Foundation Trust, United Kingdom
17:20-17:40 Title: A systematic review and meta-analysis of the efficacy of buddy taping versus reduction and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  17:40-18:00 Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20 Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom  18:20-18:40 Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee Jose Guerra, Scarborough Health Network, Canada Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA  Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico	17:00-17:20	
and casting for non-operative management of closed fifth metacarpal neck fractures Mohamed Mohamed, University Hospitals Plymouth, United Kingdom  17:40-18:00 Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20 Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom  18:20-18:40 Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA  20:10 - 20:30 Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico		Fitzgerald Anazor, East Kent Hospitals University NHS Foundation Trust, United Kingdom
17:40-18:00 Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20 Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary Ziad El Menawy, United Kingdom  18:20-18:40 Title: Bone densitometry in children and adolescents: Main aspects Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee Jose Guerra, Scarborough Health Network, Canada  19:50 - 20:10 Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff Edward R Floyd, Twin Cities Orthopedics, USA  Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico  Title: Hypothenar hammer syndrome in a cyclist	17:20-17:40	
Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom  18:00-18:20  Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary  Ziad El Menawy, United Kingdom  18:20-18:40  Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30  Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study  Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50  Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  19:50 - 20:10  Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff  Edward R Floyd, Twin Cities Orthopedics, USA  Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico  Title: Hypothenar hammer syndrome in a cyclist		Mohamed Mohamed, University Hospitals Plymouth, United Kingdom
18:00-18:20  Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary  Ziad El Menawy, United Kingdom  18:20-18:40  Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30  Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study  Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50  Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  19:50 - 20:10  Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff  Edward R Floyd, Twin Cities Orthopedics, USA  Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico  Title: Hypothenar hammer syndrome in a cyclist	17:40-18:00	Title: Outcomes of ankle joint fusion in patients with hemophilia: A systematic review
Ziad El Menawy, United Kingdom  18:20-18:40 Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30 Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study  Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50 Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  19:50 - 20:10 Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff  Edward R Floyd, Twin Cities Orthopedics, USA  20:10 - 20:30 Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico  20:30 - 20:50 Title: Hypothenar hammer syndrome in a cyclist		Fitzgerald Anazor, Nottingham University NHS Foundation Trust, United Kingdom
18:20-18:40  Title: Bone densitometry in children and adolescents: Main aspects  Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30  Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. A cross-sectional study  Olga Cecilia Suárez Caicedo, University Institution Escuela Nacional del Deporte, Colombia  19:30 - 19:50  Title: Periprosthetic Fractures of the hip and knee  Jose Guerra, Scarborough Health Network, Canada  19:50 - 20:10  Title: Orthopaedic surgery in ambulatory surgery centers during the COVID-19 pandemic: Incidence of infection in patients, surgeons and staff  Edward R Floyd, Twin Cities Orthopedics, USA  20:10 - 20:30  Title: Three level anterior cervical decompression and fusion with PEEK cages: A review of the clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico  Title: Hypothenar hammer syndrome in a cyclist	18:00-18:20	Title: The safety use of intraoperative tourniquets in Manchester Royal Infirmary
Alfania Carvalho, Fortaleza General Hospital, Brazil  Break (18:40-19:10  19:10 - 19:30  Title: Effect of a rehabilitation protocol on the functionality and quality of life in patients with a total knee replacement. clinical and imaging outcome  Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico  Title: Hypothenar hammer syndrome in a cyclist		
20:30 - 20:50 Title: Hypothenar hammer syndrome in a cyclist	20:10 - 20:30	
		Anabel Euan Gutierrez, Instituto Nacional de Rehabilitacion, Mexico
Shunei Asao, University of Utah, USA	20:30 - 20:50	Title: Hypothenar hammer syndrome in a cyclist
		Shunei Asao, University of Utah, USA
Day 1 Ends		Day 1 Ends

	Day 2: December 09 2022 Friday	
Session Introduction		
10:00-10:20	Title: The Incidence and risk factors analysis for mortality after revisional total knee arthroplasty based on a nationwide database in Korea	
	Sang Hoon Park, National Health Insurance Service Ilsan Hospital, South Korea	
10:20-10:40	Title: Logic is enough: A clinical evaluation of all-poly cruciate retaining total knee system for treating osteoarthritis patients (three-year follow-up study)	
	Rene Catan, Southwestern University School of Medicine, Philippines	
10:40-11:00	Title: The using prolene mesh as augmented capsul of hip hemi-arthroplasty after resection proximal femur tumors	
	Husna Dharma Putera, Universitas Lambung Mangkurat, Indonesia	
11:00-11:20	Title: Rheumatoid Arthritis Therapy: An updated overview of US FDA Status of advances in 21st century	
	Raj Kumar, Rajendra Institute of Medical Sciences, India	
11:20-11:40	Title: A rare case of Extra-osseous intra-articular Osteochondroma in the Hoffa's fat pad of knee joint	
	Jeevan Pereira, Yenepoya Deemed to be University, India	
11:40-12:00	Title: Femoral neck fracture in geriatric population: Comparative outcome of hemiarthroplasty via posterior vs direct lateral approach	
	Raj Kumar, Rajendra Institute of Medical Sciences, India	
12:00-12:20	Title: The effects of different face types on body posture	
	Beyza Karadede Unal, Izmir Katip Celebi University, Turkey	
12:20-12:40	Title: 3D Overview of Maxillofacial Anatomy	
	Bersan Karadede, Izmir Katip Celebi University, Turkey	
12:40-13:00	Title: 3D Approach to the Effects of Maxillofacial Structure Malpositions on the Pharyngeal Airway	
	Irfan Karadede, Izmir Katip Celebi University, Turkey	
13:00-13:20	Title: The effects of a multi-factorial rehabilitation program in functional mobility and in prevention of secondary falls in elderly with a hip fracture in a hospital setting	
	Konstantinos Chaniotakis; Anna Pantouvaki, General Hospital of Heraklion Venizeleio, Greece	
13:20-13:30	Title: Surgical treatment of patients with hard lessions of the hind foot and ankle with custom-made implants: Case presentation	
	<b>Igor Pakhomov</b> , Novosibirsk Research Institute of Traumatology and Orthopaedics, Russian Federation	
13:30-13:40	Title: Prevalence of Bertolotti's syndrome in lumbosacral surgery procedures	
	Ahmed Ashour, El hadara University Hospital, Egypt	
13:40-14:00	Title: Review of management and outcomes of scaphoid injuries referred to the virtual fracture clinic at a large district general hospital	
	Emile Oliver, Medway Maritime Hospital, United Kingdom	
14:00-14:20	Title: Outcomes of clavicle fixation: Results from a district general hospital	
	Emile Oliver, Medway Maritime Hospital, United Kingdom	
14:20-14:40	Title: Assessment of the functional outcomes and complications rate from the surgical treatment of unstable subcapital fracture of the fifth metacarpal according to a new classification system based on fracture pattern.	
	Grigorios Kastanis, General Hospital of Heraklion Venizeleio, Greece	

14:40-15:00	Title: Does caffeine reduce methotrexate intolerance in patients with rheumatoid arthritis: A randomized controlled study
	Fatma H. EL Nouby, Aswan University, Egypt
15:00-15:20	Title: The safe entry zones to lumbar disc through transpoas approach (cadaveric study)
	Ahmed Mohamed Elrahmany, Alexandria University, Egypt
15:20-16:00	Title: Predictors of musculoskeletal manifestations in paediatric patients presenting with sickle cell disease at a tertiary teaching hospital in Lusaka, Zambia
	Raymond Mpanjilwa Musowoya, Zambia
16:00-16:20	Title: Femoral reduction and fixation of femural neck fracture in young people by direct anterior approach: A case report
	Giacomo Trivellin, Ospedale P. Pederzoli, Italy
16:20-16:40	Title: A comprehensive evaluation of minimally invasive Achilles tendon reconstruction with hamstring graft indicates satisfactory long-term outcomes
	Bartosz Kiedrowski, Physiotherapy/Rehasport Clinic, Poland
16:40-17:00	Title: Delayed presentation of dislocated uni-compartmental knee replacements – A twenty year data review
	Yiteng Xu, Torbay and South Devon NHS Foundation Trust, United Kingdom
17:00-17:20	Title: Group and save: An unnecessary cost?
	Sanjeevan Yoganathan, Cwm Taf Morgannwg University Health Board, United Kingdom
17:20-17:40	Title: Platelet rich plasma injection for acute Achilles tendon rupture: Two-year follow-up of the PATH-2 randomized, placebo-controlled, superiority trial
	Joseph Alsousou, Manchester University Hospital Foundation Trust, United Kingdom
17:40 - 18:00	Title: Arthroscopic ankle arthrodesis: The new gold standard in ankle fusions
	Nouman Nemat, University Hospital Waterford, Ireland
18:00 - 18:20	Title: Acetabulum fix and replace: Fixation and acute total hip arthroplasty in acetabular fractures a systematic review and meta-analysis
	Joseph Alsousou, Manchester University Hospital Foundation Trust, United Kingdom
18:20 - 18:40	Title: Outcomes of ceramic-on-ceramic total hip arthroplasties after ten years
	Muhammad Ilyas Ansari, Cork University Hospital, Ireland
18:40 - 19:00	Title: Outcome of DAIR procedure in infected hip and knee arthroplasties in Cork University Hospital, Cork Ireland
	Muhammad Ilyas Ansari, Cork University Hospital, Ireland
19:00 - 19:20	Title: Qin Sihe surgical treatment combined with Ilizarov technique in the correction of 6 cases of complex knee-lower leg deformity
	Sihe Qin, National Research Center for Rehabilitation Technical Aids, China
19:20-19:40	Title: A novel approach to low-energy calcaneal tuberosity avulsion fractures in patients with fragile bone quality: A report of two cases
	Ashley Gall, West Virginia University School of Medicine, United States of America
19:40 - 20:00	Title: Management of the rheumatoid foot and ankle
	H. John Visser, SSM DePaul Health Center, United States of America
